Some tips

If a book is no longer available, you can:

- Try to find a used copy on the Internet;
- Borrow the book from the municipal library;
- Find another book on the same theme. The librarian at your school, the school counselors and your bookseller can help you find new books.

If you do not have enough budget to buy all the books in the first year you can:

- Purchase a portion of the books (for example a book for each theme) and complete with books that you will borrow from your school library or municipal library;
- Add other books to your collection the following year.
